

Installation Instructions for Ground Based Maintenance Computer Software

Installation from CD-ROM

1. Insert CD in CD-ROM drive.
2. Click on the “Start” button and select “Run” from the Windows Popup Menu
3. Click on the “Browse...” button in the Run dialog box.
4. Select you CD-ROM drive from the dropdown menu at the top of the Browse dialog box
5. Select the Setup program file in the displayed file list and click on the open button.
6. When the Run dialog box returns, the setup.exe program file should be displayed in the “Open” selection. Press “Ok” button to begin installation.
7. Follow the instruction provided by the GBMC install program.

Installation From Floppy Disks

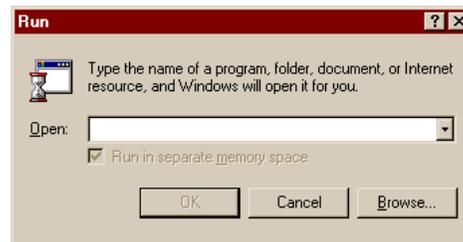

This procedure requires three, 1.44mb formatted floppy disks. Label disks 1 through 3 and copy files from the CD-ROM to the floppy disks as indicated in the table below.

Floppy Disk #	Files to copy to this disk
Disk 1	IIDSGP1 (WinZip File) Setup (Setup.exe installation program) SETUP (SETUP.LST Used with Setup App.)
Disk 2	IIDSGP2 (WinZip File)
Disk 3	IIDSGP3 (WinZip File) README (README.TXT Text file – GBMC Installation Info)

1. Insert floppy disk in drive.
2. Click on the “Start” button and select “Run” from the Windows Pop-up Menu

3. Click on the “Browse...” button in the Run dialog box.

4. Select your floppy drive from the dropdown menu at the top of the Browse dialog box
5. Select the Setup program file in the displayed file list and click on the open button.

6. When the Run dialog box returns, the setup.exe program file should be displayed in the “Open” selection. Press “Ok” button to begin installation.
7. Follow the instruction provided by the GBMC install program.
