ALLISON ALERT BULLETIN ISSUED

TO: All owners and operators of McDonnell Douglas Helicopter Company (MDHC) 369 Series helicopters, including the 369A (OH-6A) Series helicopter.

IMPROVED STRENGTH PC FILTER HOUSING

Allison Gas Turbine Division has issued an Alert Commercial Engine Bulletin to prevent the possibility of fatigue failure of the PC air filter inlet fitting which may result in sudden unintended engine power loss.

As part of this bulletin, Allison has extended a special pricing policy for compliance to this bulletin within a specified time period.

To obtain a copy of this bulletin or for information regarding the special policy pricing, contact your local Allison Distributor.
